

**TORGUSON GROUP NH, LLC**  
**GAMES OF CHANCE GAME PROCEDURES**

**The name of the card game:** Blackjack, also known as 21

**The object of the card game:** The object of the game is for a player to have a hand closer to 21 than that of the dealer without going over. If a player is dealt an Ace and at the same time a 10, Jack, Queen, or King on the first two cards, the player has "blackjack" and will win the table odds unless the dealer also has "blackjack" **in which case the player does not win or lose his/her bet also known as a "push"**.

**The rules of the card game:** The values of the cards are as follows: an Ace may count as either 1 or 11. A hand that contains an Ace is called a "soft" total if the Ace can be counted as either 1 or 11 without the total going over 21. If the Ace must be counted as 1 to prevent the hand from going over 21, the hand is then called a "hard" total. The cards from 2 to 9 are valued at their face value. The 10, Jack, Queen, and King are all valued at 10.

A player may play up to two hands. Play begins from the dealers left and all players must wait their 'turn' to play. Players are not permitted to touch the cards. The dealer will hit until his or her cards total a hard 17 or higher.

Side bets among players are not permitted. Players conduct at the table is proscribed by the house rules.

**The equipment used for the card game:** felt table indicating the location for placing wagers; standard playing cards, poker chips, dealer shoe, automatic card shuffler (optional) **recent hands indicator board [optional]**

**The method of play for the card game:** Once the bets are placed the dealer will deal two cards to the players. The dealer makes two passes around the table starting at the dealer's left (the player's right) so that the players and the dealer have two cards each. The dealer will flip one of his or her cards over exposing its value. After the cards have been dealt play proceeds around the table, starting at the first seat to the dealer's left. In the course of play if the player wishes to be dealt another card, the player will indicate this to the dealer by tapping the felt with a finger behind the cards, ~~and/or announcing "hit"~~. If the player does not wish to be dealt another card, the player will wave his or her hand over the cards ~~and/or announce "stand"~~. Hand motions will overrule any voice commands. When the hand is over, the dealer will move around the table to each position, in turn, paying winners and collecting losing wagers. Any card dealt in error is a misdeal.

**The types of wager or wagers for the card game:**

Ante – chips are placed by the player in the designated position to indicate the desire to play a hand.

Splitting - after being dealt the first two cards, a player may choose to split his or her cards **provided his first two cards are a pair** thereby creating a new hand. An additional bet equal to the ante is required when cards are split. After a split, a hand consisting of an Ace and

9/27/2011

a 10, Jack, Queen, or King is not considered blackjack and only counts as 21. ***If the player splits Aces he can only receive one card on each hand.*** ~~A player cannot play on two Aces after they are split.~~

Double down – on a players' first two cards, a player may ~~double~~ ***place an additional wager equal to his ante*** ~~his or her bet~~ and receive only one additional card to the hand  
Double down is also allowed after a split.

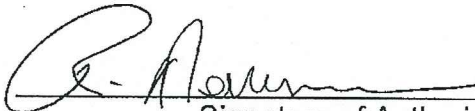

Poker Bonus – if the player's two cards plus the dealer's up card create a winning 3 card poker hand, the player will be paid based on the posted odds ***provided he has wagered on the three card bonus spot on the felt.***

Bonus 7's – if a player is dealt one or more 7's he or she will be paid based on the posted odds ***provided they wagered on the Bonus 7 spot on the felt.***

The wager amounts for the card game: \$1 to \$4

The payouts and payout odds for each wager in the card game: Blackjack pays 3:2 or 2:1 as posted. ***All other payouts for the Blackjack hand are even money. Bonus bet payouts are as posted.***

The above is an accurate description of our rules and method of play for the game listed.

## How to Play Blackjack

# THE Lodge AT BELMONT

### Blackjack Rules:

- The goal of blackjack is to beat the dealer's hand without going over 21.
- Face cards are worth 10. Aces are worth 1 or 11, whichever makes a better hand.
- Each player starts with two cards, one of the dealer's cards is hidden until the end.
- To 'Hit' is to ask for another card. To 'Stand' is to hold your total and end your turn.
- If you go over 21 you bust, and the dealer wins regardless of the dealer's hand.
- If you are dealt 21 from the start (Ace & 10), you got a blackjack.
- A Blackjack will pay 3-2 or 2-1 as posted.
- Dealer will hit until his/her cards total a hard 17 or higher.
- Double down is allowed on the players first two cards, a second bet equal to the players first bet is put up and the player receives one more card and one card only. Double down is also allowed after a split.
- Split can be done when you have two of the same card - the pair is split into two hands.
- You cannot play on two aces after they are split.
- You may play multiple hands, to a maximum allowed by the RCGC as posted.
